The drawings are objected to as generally failing the requirements of 37 CFR 1.84 as the drawings appear to be informal. Note in particular the Draftspersons' Notice, PTO-948 attached to paper no. 5, mailed February 9, 2004. Additionally, note the acceptable corrections as submitted by applicant on June 4, 2004.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

In the response filed June 8, 2005, applicants appear to have intended, based on the remarks, three copies of the specification. According to applicants remarks, the copies were a "mark-to-show copy of the substitute written description and abstract (as compared to the written description and abstract as amended on August 2, 2004) which

Art Unit: 3753

shows the matter being added thereto and deleted therefrom, attached hereto as appendix A ("Mark-to-show Specification and Abstract"), and a clean version of the amended written description and abstract, attached hereto as Appendix B ("substitute Written Description and Abstract"). Additionally, for the Examiner's convenience, please find attached a copy of the pending specification and abstract as Appendix C as previously amended ("original Copy of Specification and Abstract")."

As only two copies of the specification were filed, one being the "mark-to-show copy of the substitute written description and abstract" i.e. Appendix A. The only other copy of the specification appears to be "a copy of the pending specification and abstract" i.e. Appendix C. There is no clean copy of the specification including all the changes shown in the "mark-to-show" copy.

Accordingly, the "mark-to-show" copy will be entered as it includes the amendments applicant intends to make to the specification.
